American-Jaeger.com

Custom 21<sup>st</sup> Century Hybrid Wood Stock Hunting Rifles

The American JÄEGER Rifle is a classically designed precision hunting rifle built with SABER® precision machined stainless steel actions, match grade barrels and advanced technology premium grade wood stocks. Each JÄEGER rifle is hand crafted by Ashbury's precision weapons section lead by USMC trained gunsmiths, armorers and proud American craftsmen to deliver exceptional ½ MOA down range performance. American JÄEGER rifles are built on premium hybrid wood-alloy stocks that feature an aerospace grade chassis embedded inside premium grade American, English and exhibition-grade Turkish walnut rifle stocks. American JÄEGER rifles are available in 25 different short and long action cartridges with right or left hand configurations.
